SKILLS

- **Programming Languages:**C, C++, Java, Python (Basics), TypeScript (Basics)
- **Web Development:**HTML, CSS, JavaScript, PHP, React.js, Angular
- **Backend & API Development:**.NET (Basics), RESTful APIs
- **Database Technologies:**MySQL, Oracle Database, Firebase, MongoDB, PostgreSQL
- **Android Development:**Android App Development using Java (Daily Quote App, To-Do List App)
- **Core Computer Science Subjects:**Operating Systems, Data Structures & Algorithms, Data Communication & Networking, Data Compression
- **Tools & Technologies:**Visual Studio Code, Eclipse, Android Studio, XAMPP, Git, GitHub, Postman
- **Soft Skills:**Problem-Solving, Communication, Teamwork, Adaptability, Time Management, Willingness to Learn

INTERNSHIP EXPERIENCE

1. Summer Internship – TatvaSoft

Duration: 15 Days

Technologies: .NET, Angular, PostgreSQL

- Gained hands-on experience in building RESTful APIs using .NET.
- Learned to develop front-end components using Angular.
- Worked with PostgreSQL for backend database integration.
- Understood real-world software development practices in a professional environment.

2. Project-Based Internship – CodSoft

Duration: 1 Month

Technologies: Android (Java)

- Developed two functional Android applications: a Daily Quote App and a To-Do List App using Java.
- Implemented UI components, data persistence, and activity navigation.
- Strengthened understanding of Android development lifecycle and Java-based mobile app development

PROJECTS

BookMyGround: A Ground Booking System

- BOOKMYBOX is an online platform for booking sports ground time slots.
- Users can view ground details, check real-time slot availability, and make reservations.
- The system supports online payments and sends booking confirmations.
- Admins can manage grounds, slots, bookings, and monitor user activity.
- A mobile version allows users to access all features on the go.

Shree Krishna Mala: A Spiritual Chanting App

- Shree Krishna Mala is a devotional Android app for digital chanting and reading scriptures.
- Users can perform mala by tapping a button that plays a soothing "Om" sound with each count.
- The app includes full access to the Bhagavad Gita, organized chapter by chapter.
- Features a clean, intuitive UI designed for spiritual focus and ease of use.
- Built using Java and Android XML, with integrated media playback for Om chanting.

CERTIFICATES

▪ **Database Management System(NPTEL) | Certificate**

Completed an 8-week online course conducted by IIT faculty, gaining in-depth understanding of relational databases, SQL, ER models, normalization, and transaction management.

▪ **Machine Learning Workshop | Certificate**

Participated in a hands-on workshop focused on the fundamentals and real-world applications of Artificial Intelligence and Machine Learning, gaining insights into emerging AI trends and tools.

▪ **Data Structures and Algorithms | Certificate**

Attended an interactive workshop covering key data structures, algorithmic problem-solving techniques, and time complexity analysis, enhancing foundational programming and coding skills.
